The times below are a rough guide to trading. During off peak periods the market may finish as early as 4.30pm

We're not like the shops and can't just close the door at the end of a hard day, we have to take the shop home with us and different stalls have to start the long process at varying times.

So come early and shop longer!!

Market Days are from 9am - 5pm

Monday

Wednesday

Friday

Saturday

This includes Bank Holiday Mondays and Easter Friday

During the Christmas period, market days may vary depending on how the days fall within the Christmas week through to New Year. Please click on the link in the main menu to see when these days are.

If the weather is extremely bad (especially wind) traders may find it impossible to put up their stalls. This is not because we don't want to, there are health and safety issues affecting you all.

(Imagine an Iron bar attached to a low flying parachute with a mind of it's own!!)

You can always check if the market' s on by ringing.....

Thanks for thinking of visiting us.
